A website that's really yours

Aurora Indigenous Solutions · Small, fast, official websites for local businesses

$500 or $800 one time

A simple, professional website that puts your real information in front of customers: who you are, where you are, when you're open, and how to reach you.

Why it matters

- Customers search Google before they visit
- Without an official site, outdated or unofficial listings can show up instead
- Your site is the one place you control the facts

2. You send your logo, photos, and info.
3. You see a draft within **3 days**.
4. We make your changes.
5. Your site goes live within **7 days** of your OK.

What you provide
